

Acceptance Criteria for Multi-Language and Multi-Currency Support

Multi-Language Support

- As a user, I want the website interface to display in Japanese so I can navigate in my native language.
 - Website interface displays all UI elements in Japanese.
 - Language selection persists across sessions.
 - No untranslated text remains on any page.
- As a user, I want product descriptions translated into Italian.
 - All product descriptions are available in Italian.
 - Translations maintain original meaning and formatting.
 - Switching to Italian updates descriptions instantly.
- As an admin, I want to upload translations for German product pages.
 - Admin panel allows uploading German translations for product pages.
 - Uploaded translations are validated for completeness.
 - Changes reflect immediately after upload.
- As a user, I want the checkout process available in Portuguese.
 - All checkout steps and messages are displayed in Portuguese.
 - Payment confirmation and error messages are localized.
 - Language preference persists through the checkout process.
- As a site administrator, I want to add Chinese language support for all site functions.
 - Chinese language option is available in settings.
 - All site functions, including admin tools, support Chinese.
 - No layout issues occur when switching to Chinese.
- As a user, I want to switch languages easily from the header menu.
 - Header menu includes a language selector with all supported languages.
 - Language switch occurs without page reload.
 - Selected language applies site-wide instantly.

Multi-Currency Support

- As a user, I want prices displayed in South Korean Won.
 - Product prices display in South Korean Won when selected.
 - Conversion uses accurate exchange rates.
 - Currency symbol and formatting follow local standards.
- As a user, I want to view product prices in Indian Rupees.
 - Indian Rupee option available in currency selector.
 - Prices update immediately upon selection.
 - Formatting complies with INR standards.
- As a customer, I want the checkout total to convert to Brazilian Real.
 - Checkout total displays in Brazilian Real when selected.
 - Conversion accuracy verified against current rates.
 - Tax and shipping costs reflect correct currency.
- As a user, I want to see prices in Mexican Peso.
 - Mexican Peso option available in currency selector.
 - All product and cart prices update correctly.
 - Currency formatting follows MXN conventions.
- As a user, I want to pay in South African Rand.
 - Payment gateway supports South African Rand.
 - Final amount matches displayed total in ZAR.
 - Receipts and confirmations show ZAR currency.

- As a customer, I want currency selection options for Russian Ruble and Chinese Yuan.
 - Currency selector includes Russian Ruble and Chinese Yuan.
 - Prices update accurately for both currencies.
 - Formatting and symbols are correct for each currency.
